

SAQA ID No: 49077	NQF Level: 3	Credits: 130
Qualification – National Certificate: Information Technology: End User Computing		
Field: 10 – Physical, Mathematical, Computer and Life Sciences		

National Certificate: Information Technology: End User Computing

Course Information

The design of the qualification is unit standard based, to allow learners to qualify for a national qualification by accumulating the required credits via short learning programmes or workplace practical experience or both. It also allows learners to achieve the qualifications through recognition of prior learning, learnerships schemes or formal training.

The qualification at this level is foundational and generic, allowing maximum mobility between qualifications. Apart from the workplace needs the qualification will address, it is also designed as an entry-level qualification into further education and training fields, because of the wide application of End User Computing in any environment. It will allow articulation into further qualifications in End User Computing or other IT qualifications, as well as entry into any other Further Education and Training where End User Computing is required.

What are my next steps?

If you require more information before deciding if this is the course for you, or if you would like to find out what other options we have available, please contact our call centre on:

- Landline: 041-450 2550, or Mobile: 063 236 0351
- E-mail: educol@iafrica.com

If you have decided that this is the course for you, then please....

- Complete the application form.
- Pay the course fees in full or the deposit required.
- Send all the above documentation to: educol@iafrica.com

We look forward to welcoming you as a student at Ed-U Options Academy.
